## ProFORCE Diamond Technology

CONCRETE. STONE. MASONRY. UNSTOPPABLE

1-800-882-4959

### MEET THE NEW FORCE IN CONCRETE CUTTING

From the company that revolutionized concrete chain saws comes a revolution in diamond chains: FORCE4™. Designed to be used only with the FORCE4 system, it is the strongest, longest lasting diamond chain ever made. Available in both Premium and Abrasive.

Compare the size of FORCE4 against standard chain (Both chains shown actual size)

FORCE4 has been proven to have 1.5 times the tensile strength of standard chains.

Patent pending pitch design creates the optimal combination of weight and strength

50% greater tensile strength to reduce breaking

Rivet design means less stretch

Deep engagement drivelinks help keep cuts straight

Water distribution feature allows for better lubrication between bar and chain

Patented SealPRO® o-ring and bumper design for smooth cutting performance and maximum life

Chain Type	Tensile Strength
Standard	1.0
FORCE4™	1.5

### FORCE4 DIAMOND CHAIN REQUIRES UNIQUE FORCE4 COMPONENTS

#### FORCE4 DRIVE SPROCKET

Upgraded guide ring design distributes load for greater durability

Tool steel alloy guarantees exceptional strength, life, and abrasion resistance

#### FORCE4 GUIDE BAR

Laser-cut internal water channels keep the nose sprocket lubricated

Deep groove stabilizes FORCE4's chassis for straighter, cleaner cuts
